

EDWARD SPAAY

Senior Security Engineer | Infrastructure Security & Compliance Architect

Sykesville, MD 21784 | (443) 340-0424 | nebet52@outlook.com | <https://www.linkedin.com/in/edwards-engineer>

US Citizen | No clearance now

PROFESSIONAL SUMMARY

Senior Security Engineer with 34 years in enterprise IT and 25 years specializing in cybersecurity, infrastructure hardening, and regulatory compliance for financial-services and federal environments. Proven history architecting and leading enterprise-wide security hardening programs across 9+ technology platforms — Windows, Active Directory, Oracle, Cisco, and multi-cloud (Azure, OCI) aligned to NIST, DISA STIG, and CIS benchmarks. Deep ability in Group Policy (GPO) administration, vulnerability management (Tenable.sc/Tenable.io), risk reduction, and POA&M remediation reporting. Recognized technical lead who translates complex compliance requirements into measurable security outcomes for regulated retirement and financial-services infrastructure. Public Trust eligible (Tier 5/SSBI); open to obtaining or renewing required clearances.

CORE TECHNICAL SKILLS

Identity & Access Management: Active Directory (25 yrs) Group Policy Object (GPO) Management (25 yrs) Windows Domain Controller Administration (25 yrs) • Windows Security Frameworks (25 yrs)

Compliance & Risk Management: NIST • DISA STIG • CIS Benchmarks (25 yrs) Compliance Remediation (25 yrs) Risk Reduction (25 yrs) Plan of Action & Milestones (POA&M) (25 yrs)

Vulnerability Management: Tenable.sc (9 yrs) Tenable.io (9 yrs) Remediation Compliance (9 yrs)

Cloud & Endpoint Security: Microsoft 365, Defender, Intune (6 yrs) Azure Foundations (2 yrs) Oracle Cloud Infrastructure — OCI (1 yr) ThreatLocker for macOS (6 yrs) Apple macOS Security (6 yrs)

Enterprise Platforms: Oracle Database (8 yrs) Oracle WebLogic (9 yrs) Oracle Solaris 11.4 (9 yrs) Cisco MDS & Nexus Switches (9 yrs) Salesforce Platform Security

PROFESSIONAL EXPERIENCE

Security Engineer Consultant | MaraSec Consulting LLC

Sykesville, MD | Jan 2026 – Mar 2026

- Advised enterprise vendors on compliance reporting and audit-readiness documentation for regulatory security assessments.

Senior Engineer, Infrastructure Configuration | MissionSquare Retirement

Washington, D.C. | Jan 2016 – Nov 2025 (9+ years)

- Spearheaded enterprise-wide security hardening across 9+ technology platforms — Windows, Active Directory, Oracle Database, Oracle WebLogic, Oracle Solaris 11.4, Cisco MDS/Nexus, Microsoft Azure, Oracle Cloud Infrastructure, and Apple macOS — safeguarding regulated retirement and financial-services infrastructure.
- Directed Active Directory architecture, Group Policy Object (GPO) management, and Windows Domain Controller administration; enforced security baselines aligned to NIST, DISA STIG, and CIS frameworks.
- Owned the enterprise vulnerability management program using Tenable.sc and Tenable.io; drove remediation tracking and risk-reduction reporting through the Plan of Action & Milestones (POA&M) process.
- Served as technical lead for Microsoft 365, Defender, and Intune, extending endpoint detection, threat protection, and cloud security posture management across the enterprise.
- Led macOS endpoint security strategy and deployed ThreatLocker application control across the Apple device fleet.
- Provided technical security leadership for Azure Foundations and Oracle Cloud Infrastructure (OCI), securing hybrid multi-cloud environments.
- Provided technical security leadership for Salesforce platform compliance and Cisco MDS/Nexus switch infrastructure.

Security Consultant | MAD Security

Woodlawn, MD | Feb 2015 – Jun 2015

- Supported the Centers for Medicare & Medicaid Services (CMS) as Senior Security Engineer/Contractor; deployed RedSeal L3 for vulnerability management and network misconfiguration analysis.

Group Policy Consultant | SoftWorld, Inc.

Columbia, MD | Mar 2014 – Jan 2015

- Led GPO migration and Active Directory policy consolidation for University of Maryland Medical System (UMMS) hospitals; converted logon scripts to Group Policy Preferences (GPP).

Expert Security Engineer | OBXTek — SSA Headquarters

Woodlawn, MD | Sep 2012 – Mar 2014

- Administered GPOs and FDCC templates across 12 domains supporting patch deployment for ~128,000 devices; authored SSA security documentation aligned to NIST and DISA standards.

Cyber Security Specialist | Aligned Development Strategies, Inc.

Baltimore, MD | Jan 2012 – Sep 2012

- Generated vulnerability reports across 19 data centers and validated patch remediation for Windows, Unix, and Solaris systems.

Additional Experience — SSA Headquarters (Woodlawn, MD) | OBXTek • MicroTech LLC • RS Information Systems

Woodlawn, MD | Feb 1999 – Jan 2012

- Expert Security Engineer, Senior Windows Security Engineer, and LAN/WAN Security Engineer supporting the Social Security Administration over 13 years — administered Active Directory and GPOs, directed patch deployment for 120,000+ Windows systems across 12 domains, and ensured compliance with NIST and US-CERT standards.

EDUCATION

High School Diploma, Computer Science — Western High School, Davie, FL
